

THE MISSOURI DEPARTMENT OF MENTAL HEALTH AND SOUTHEAST MISSOURI BEHAVIORAL HEALTH, INC

NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

This notice is to explain the rules around the privacy of your own medical/health records and our legal duties on how to protect the privacy of your medical/health records that we create or receive. Generally, we are required by law to ensure that medical/health information that identifies you is kept private. We are required by law to follow the terms of the notice that are the most current.

This notice will explain:

- how we may use and disclose your medical/health information,
- our obligations related to the use and disclosure of your medical/health information and
- your rights related to any medical/health information that we have about you.

This notice applies to the medical/health records that are generated in or by this facility. The terms "medical" and "medical/health" in this Notice means information about your physical or mental condition which make you eligible for our services, or which arise while we are serving you. For example, this may include psychological tests, psychiatric assessments or medical or social assessments.

We may obtain, but we are not required to, your consent for the use or disclosure of your protected health information for treatment, payment or health care operations. We are required to obtain your authorization for the use or disclosure of your information for other specific purposes or reasons. We have listed some of the types of uses or disclosures below. Not every possible use or disclosure is covered, but all of the ways that we are allowed to use and disclose information will fall into one of the categories.

If you have any questions about the content of this Notice of Privacy Practices, or if you need to contact someone at the facility about any of the information contained in this Notice of Privacy Practices, the contact person is the Privacy Officer or designee:

Southeast Missouri Behavioral Health, Inc.
5536 Highway 32
PO Drawer 459
Farmington, MO 63640
(573) 756-5749

In addition to facility departments, employees, staff and other facility personnel, the following people will also follow the practices described in this Notice of Privacy Practices:

- Any health care professional who is authorized to enter information in your medical/health record;
- Any member of a volunteer group that we allow to help you while you are in the facility; and
- All providers that the Department of Mental Health contracts with to provide direct treatment services to our consumers.

In addition, individuals and providers may share medical information with each other about DMH consumers they serve in common for the purpose of treatment, payment or health care operations as those terms are described later in this Notice of Privacy Practices.

HOW WE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU

The following categories describe different ways that we use and disclose medical/health information. For each category of uses or disclosures we will explain what we mean and try to give some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of the categories.

Use and Disclosure of Medical Information

We can use or disclose medical information about you regarding your treatment, payment for services, or for facility operations, and we will make a good faith effort to have you acknowledge your copy of the Notice of Privacy Practices.

Treatment We may use medical (protected health information, or PHI) information about you to provide you with treatment or services. We may disclose medical information about you to qualified mental health professionals, or QMHPs; qualified mental retardation professionals or QMRPs; or to qualified counselors; or, technicians, medical students or residents, or other facility personnel, volunteers or interns who are involved in providing services for you at the facility, or interpreters needed in order to make your treatment accessible to you. For example, your treatment team members will internally discuss your medical/health information in order to develop and carry out a plan for your services. Different departments of the facility also may share medical/health information about you in order to coordinate the different things you need, such as prescriptions, medical tests, special dietary needs, respite care, personal assistance, day programs, etc. We also may disclose medical/health information about you to people outside the facility who may be involved in your medical care after you leave the facility, such as community health/mental health/developmental disability/substance abuse providers or others we use to provide services that are part of your care, but only the minimum necessary amount of information will be used or disclosed to carry this out. Please note that the definition of treatment does allow DMH to share PHI when necessary to consult with other providers, or when necessary to refer you to another provider, or even to treat a different individual.

Payment We may use and disclose medical/health information about you so that the treatment and services you receive at the facility may be billed to and payment may be collected from you, an insurance company or a third party. For example, we may need to provide your insurance plan information about psychiatric treatment or habilitation services you received at the facility so your insurance plan, or any applicable Medicaid or Medicare funds, will pay us for the services. We may also tell your insurance plan or other payor about a service you are going to receive in order to obtain prior approval or to determine whether the service is covered. In addition, in order to correctly determine your ability to pay for services, we may disclose your information to the Social Security Administration, the Division of Employment Security, or the Department of Social Services.

Health Care Operations. We may use and disclose medical/health information about you for facility operations. These uses and disclosures are necessary to run the facility or the Department of Mental Health and make sure that all of our consumers receive quality care. For example, we may use medical/health information for quality improvement to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine medical information about many facility consumers to decide what additional services the facility should offer, what services are not needed, and whether certain new treatments are effective. We may also disclose information to doctors, nurses, technicians, medical students and residents, and other facility personnel as listed above for review and learning purposes. We may also combine the medical/health information we have with medical/health information from other facilities to compare how we are doing and see where we can make improvements in the care and services we offer. It may also be necessary to obtain or exchange your information with the Department of Elementary and Secondary Education, the Department of Social Services, Vocational Rehabilitation, the Office of State Courts Administrator, or other Missouri state agencies or interagency initiatives, such as the Juvenile Information Governance Commission, or System of Care initiative. Or, we may remove information that identifies you from this set of medical information so others may use it to study health care and health care delivery without learning the identity of specific consumers. This may be in the form of providing information to our regional advisory councils or state advisory councils or planning councils.

Other Uses and Disclosures of Medical/Health Information That Do Not Require Your Consent or Authorization:

We can use or disclose health information about you without your consent or authorization when:

- there is an emergency or when we are required by law to treat you,
- when we are required by law to use or disclose certain information, or
- when there are substantial communication barriers to obtaining consent from you.

We can also use or disclose health information about you without your consent or authorization for:

Appointment Reminders. We may use and disclose medical information to contact you as a reminder that you have an appointment for treatment or services at the facility.

Treatment Alternatives and Health-Related Benefits and Services. We may use and disclose medical information to tell you about or recommend possible treatment options or alternatives or health-related benefits or services that may be of interest to you.

Individuals Involved in Disaster Relief. Should a disaster occur, we may disclose medical information about you to any agency assisting in a disaster relief effort so that your family can be notified about your condition, status and location.

Research. Under certain circumstances, we may use and disclose medical/health information about you for research purposes when a waiver of authorization has been approved by the Institutional Review Board, or Privacy Committee. For example, a research project may involve comparing the health and recovery of all consumers who received one medication to those who received another for the same condition. All research projects, however, are subject to a special approval process under Missouri law. This process evaluates a proposed research project and its use of medical information, trying to balance the research needs with consumers' need for privacy of their medical/health information. Before we use or disclose medical/health information for research, the project will have been approved through this research approval process. We may, however, disclose medical/health information about you to people preparing to conduct a research project, for example, to help them look for consumers with specific medical needs, so long as the medical information they review does not leave the facility. We may also use or disclose your health information without your consent when disclosing information related to a research project when a waiver of authorization has been approved by the Professional Review Committee or a university sponsored Institutional Review Board.

As Required By Law. We will disclose medical/health information about you when required to do so by federal, state or local law.

To Avert a Serious Threat to Health or Safety. We may use and disclose medical/health information about you when necessary to prevent a serious threat to the health and safety of you, the public, or any other person. However, any such disclosure would only be to someone able to help prevent the threat.
